Dear Dr Benson

I believe you remember that with your consent Mr M Srinivasa Row was, in addition to his duties as Chemical Examiner and Bacteriologist appointed Lecturer on Biology and Geology, in the Central College Bangalore, and granted a monthly allowance of Rs 200/- for this additional work subject to reversion when other arrangements should be made for teaching both or either of those subjects. Mr E W Watherall having since been appointed Head Stake Geologist and Lecturer in Geology, Mr Cook recommended that on being relieved of his Srinivasa Row be asked to resume Biology. He strongly urges the

Srinivasa Row Government are of opin-
-ion that his recommendation is a
good one in every way- I am accord
-ingly desired to request that you
will kindly favor Government with your
opinion as to whether the proposed
arrangement may be given effect to
without detriment to Mr Srinivasa Rows
duties in the Medical Department-
As the matter is urgent, a line in
reply per bearer will oblige-

Yours Very Sincerely,

Sd C Srinivasaiyar

P S Mr Cook writes to say that
under the new arrangement, the time
devoted by Mr Srinivasa Row to teach-
-ing in the College will remain the
same as it has been since 1st. Fe
bruary last-

From

The Principal,
Central College,
Bangalore

To

The Secretary to Government
General & Revenue Departments

Sir,

I have the honour to inform the Government that, in accordance with the Memorandum dated 9 Dec 1897 given by the Dewan, I have started the teaching of Geology in the Junior B A class of this college with Mr M Sriniwasa Rau M A BSc MRCS as Teacher. As there is only one class this year Mr M Sriniwasa Rau has agreed to take it in both Biology and Geology - on the understanding that next year when we may hope to have two classes (a Junior and [illegible]) he will confine himself to the [illegible] of the Subject which

[illegible]

6

Government Geologist) will take
the Geology portion with both classes

On the 28 January last I wrote
to the Registrar of the University
requesting that this college be
affiliated by the University for
Branch III D of the BA degree Examination
in addition to Branches I & II A for
which we have been for many years
affiliated and gave all necessary
information in accordance with the
Bye Laws of the University and I
am glad to say that by his letter
no A $\frac{282}{2160}$ dated 5 February I am
informed that the Syndicate has
resolved to recommend to Government
the affiliation of this college to the
University in Branch III D - Geology.

I am glad also to have to report
that a very few number of students
have come forward to enrol their
names for Geology, there being
at present no fewer than 12 names
in the roll - a number much

greater than I had expected which shows that the provision of teaching in this subject is likely to prove popular

In these circumstances I have no doubt that the Government may sanction a small special Grant for the purchase of Reference Books in this subject and for the provision of such Educational appliances in the subject as the Teacher may find necessary and which cannot be had from the Geological department here A special list of these requirements I shall be able to forward in a day or two

With regard to the pay of Mr Srinivasa Rau I have the honor to propose that, as the number of teachers available for this class of teaching which he has undertaken is very limited and requires the knowledge of a Specialist the Government

19

Government may be pleased to
sanctum at least Rs 200/- per month
for his work in this college as from
the 1st February 1898 I do not think,
considering his qualifications and
the importance to the state in future
of such teaching, he can possibly
be offered anything less I have
personally discussed the matter
with the Senior Surgeon to the Government
of Mysore and he agrees with me
in this

In conclusion I have the honour
to ~~state~~ report that the Time Table
the College has been rearranged so as to
allow Mr Srinivasa Rau, doing his
work consecutively here, to discharge
his duties without interference in
the Bacteriological Laboratory

I have the honour to be
Sir
Your most obedient Servant
